Palliative care
EVERYWHERE

National Hospice Palliative Care Week | May 7 - 13, 2023

Palliative care is person-centered care. That means, in part, that wherever there is a person with a life-limiting illness – palliative care can be provided. If someone is facing significant health-related suffering because of a life-limiting illness, palliative care can help regardless of the setting of care, regardless of their illness or prognosis, regardless of their postal code. Every year, **Palliative Care Week** is recognized across Canada in the first full week of May. Join Penticton Hospice Society in showing our appreciation for the care given those in Palliative Care.

Locally, Moog and Friends Hospice in Penticton provide care with the mission "to provide exceptional and compassionate care in our community to people who are nearing life's end."

Located just south of the Penticton Regional Hospital, Moog and friends Hospice House is a unique 'free-standing' building with 12 well-appointed private rooms looking out to a tranquil garden area. There is a comfortable living room space with a fireplace and a modern kitchen. Families may prepare meals, coffee, or snacks for their loved ones.

Every family navigating the challenges that arise when a loved one is diagnosed with a life-limiting illness deserves the best quality of care and support that we can offer. In hospice, at home, in long term care, in hospital – there are no limits to where someone can receive palliative care to meet their needs.

Will you support compassion, dignity, and care in your community this National Hospice Palliative Care Week? Do your part to ensure that across the country, there is **Palliative Care Everywhere!**
